

HOME MAINTENANCE

Date:

Every 6 months:

- Test batteries in smoke and carbon monoxide detectors /replace.
- Check for leaks and water run-on in toilets.
- Inspect caulking around tubs, showers, and sinks/replace.
- Tighten drain connections and fasteners in garbage disposal.
- Clean water inlet filters in washing machine; check hoses and replace leaking.
- Check for leaks and water run-on in toilets.
- Vacuum lint from clothes dryer ducts and surrounding areas.
- Check for worn cords and wires in home wiring; repair or replace.
- Wash fan blades and housing in range hood.
- Check forced air heating system semi-annually if user's manual recommends high-efficiency pleated or HEPA-style filters.

Notes:
